Testimonial for Professional Business Coach Donna Lendzyk

This summer I had the opportunity to take Donna's 5-part e-course. At first I balked at the thought of yet another email to read, and even more daunting was the fact that there was an exercise involved with each one! However by committing each week to completing the series of exercises, I was able to prioritize my overfull inbox, and begin the task of tackling my to-do lists.

The course allowed me to gain the momentum that I now have – dealing with responsibilities as they arise, delegating where possible and enabling me to outline, organize and achieve my personal and professional goals.

Thanks Donna!
